utsav.midhtech@gmail.com

(607)-296-9583

[linkedin.com/in/utsavmaan28](https://www.linkedin.com/in/utsavmaan28)

TECHNICAL SKILLS

Operating Systems Windows: Linux distributions (CentOS, Ubuntu, RedHat, Debian)

Programming Languages: Python, Java, .NET, C++, C#, SQL, JSON, HTML, CSS

Automation and Build Tools: Ansible, Jenkins, Terraform, Puppet, Chef, ANT, Maven

Version Control Tools: GIT, GitHub, Bitbucket, GitLab

Databases: Oracle, MongoDB, MySQL, CosmosDB, PostgreSQL, Firebase, Cassandra

Scripting: Python, Shell, PowerShell, Ruby, JavaScript, Jinja

Methodologies: Agile, Scrum, Test-driven Approach

Tools: Docker, Kubernetes, Jira, Shell, Bash, Automation, NodeJS, jQuery, Django, Flask, XML, Nginx, Apache HTTP

SDKs: ReactNative, Unity3D, Android Studio, Arduino

PROFESSIONAL SUMMARY

- ▶ Experienced DevOps / Cloud Engineer with 4+ years of hands-on experience specializing in **Azure**.
- ▶ Skilled in deploying resources in **Azure** cloud interface which include IaaS models, PaaS models, configure role-based access, provision application resources, tune existing resources, work with **Azure DevOps**, and deploy resources using **Terraform**, and **ARM** templates.
- ▶ Worked on migrating on-prem infrastructure and application to Azure and adopt CI/CD using Azure DevOps and GitHub Actions. Worked with **Microsoft Identity Manager Management** authentication and authorization including **Azure Default Directory (AD)**. Set up **Azure devops CI/CD** release and validation pipelines.
- ▶ Experience with **Azure Resource Manager (ARM)** templates and **Terraform** scripts for **creating** Resource Groups, Virtual Networks, Subnets, Virtual Machines, Blob Storage, Azure-CLI, Network Design, Azure Automation, Azure Active Directory, Azure AD Connect, Application Gateway, Key vaults, Site Recovery, Azure Boards, Azure Repos, Azure Pipelines, Azure Artifacts and Azure Test Plan resources.
- ▶ Proficient in planning, collaborating, and tracking work/assignments using **Azure Boards** agile productivity tools.
- ▶ Worked on using **CI/CD Azure Pipelines and GitHub Actions** to build and test code projects which were tested in the Test. Focused on **triggers** that automatically invokes build pipelines for **Continuous Integration** of source code changes and release pipelines for **Continuous Deployment**.
- ▶ Expertise in defining **Azure Pipelines and GitHub Actions** workflows for **provisioning** application resources, managing secrets and environment variables securely, and orchestrating complex deployment pipelines. Used **Azure Key Vault, HashiCorp Vault**
- ▶ Skilled in creating and deploying **artifacts** for **NuGet packages, Docker images, applications, Maven, and npm**. Experienced in **storing** these artifacts using **Azure Artifacts, GitHub Packages, and Docker Hub**.
- ▶ Experienced in building testing pipeline and integrating **Static Code Analysis, Load Testing, Automated Testing and Compatibility Testing**
- ▶ Worked on **monitoring** and **optimizing** Azure Pipelines and GitHub Actions **workflows** for performance, resource utilization, and cost efficiency, utilizing built-in metrics and logging feature with **Marketplace integrations**.
- ▶ Proficient in invoking **HTTP trigger** functions with HTTP request and build serverless APIs. Worked with **Postman API** testing tool to call HTTP triggers and performed load testing on the applications using Azure DevOps Services.
- ▶ Skilled in integrating **Azure DevOps** with **Docker containers** using Azure DevOps pipelines to orchestrate microservices builds and deployments to Azure Kubernetes Service (AKS). Implemented configuration automation and server virtualization using Docker in Test and production environments within Azure **DevOps pipelines**.
- ▶ Proficient in implementing and maintaining **Kubernetes (k8s)** Clusters for running **microservices** and pushed them into **production** with **Kubernetes, Docker, AKS, Azure and Artifacts**.

- ▶ Developed automated **Kubernetes clusters** using **Ansible playbooks**, and utilized **Calico** to provide secure **network** connectivity for **Docker containers**
- ▶ Streamlined data collection processes by integrating **Python** scripts with **SQL database** for efficient data storage and retrieval. Utilized **pandas and NumPy** for data cleaning and transformation, and employed **Cron Jobs** to automate regular **scraping tasks**, ensuring timely and accurate data updates.
- ▶ Hands-on experience with **Ansible YAML scripts** that automates cloud provisioning, configuration management, intra-service orchestration and application deployment.
- ▶ Designed and implemented **web scrapers** using **Selenium** to extract and process large volumes of data from various **dynamic** and **static websites**. Ensured robustness by incorporating **error handling, retries, and logging mechanisms** to manage network issues and **site structure changes** effectively.
- ▶ Expert with **HashiCorp Terraform** automation for provisioning and managing various cloud infrastructures. Deployed **Terraform** scripts using **Azure Build and Release** pipelines.
- ▶ Proficient in leveraging reusable **Terraform templates/modules** for provisioning and managing Azure infrastructure as code (IaC) to establish **Dev, Test, UAT, and production** environments through **configuration** files. Utilized **Azure Storage** to store **Terraform state** files, ensuring comprehensive tracking of all environment changes.
- ▶ Experienced with version control systems such as **GIT, Subversion, Azure Repos**. Utilized GitBash tool to clone the private and public repositories. Skilled in building project branches, merge and release them into various environments.
- ▶ Experience in scripting languages like **Python, Ruby, Perl, Shell, Bash** and familiar with **storage, Networking, PowerShell** commands. Experienced in creating automated **PowerShell** Scripts for **web-app deployment**.
- ▶ Experience in working with **Agile** methodologies and **Scrum** practices. Handled daily stand-up calls to measure the team performance and manage the work.

PROFESSIONAL EXPERIENCE

Client: TransAmerica (Remote, USA) | Cloud DevOps Engineer

RESPONSIBILITIES:

Jan 2023 - Present

- ▶ Successfully transitioned all **on-premises** Cisco **hardware** and **applications** to **Azure Cloud**, leveraging Azure's scalable infrastructure.
- ▶ Migrated data to **Azure Storage** solutions, including **Blob Storage** and Azure **SQL Database**, for **scalable** and **secure** data management, ensuring seamless access via Azure services and cloud-hosted applications.
- ▶ Hosted **internal** applications on **Azure** while maintaining **critical data on-premises**, leveraging **hybrid** connectivity solutions such as **Azure VPN and ExpressRoute** to securely access on-premises data through Azure services.
- ▶ Implemented and managed Azure resources spanning multiple providers including **Compute, Network, and Application Gateway**, utilizing **Terraform** and Azure Resource Manager **ARM** templates. Established and sustained Dev, Test, UAT, and Prod environments through infrastructure as code methodologies, employing **Terraform scripting** and **Azure ARM templates**.
- ▶ Involved in writing **Ansible playbooks** to push out new / confirm configuration of the deployed **infrastructure**. Defined tasks to Ansible modules for roles and playbooks.
- ▶ Utilized **Docker** to **containerize applications**, enabling **portability** and **scalability** across different environments. Configured Docker images to encapsulate application code, dependencies, and configurations, and stored them in **Azure Container Registry**, facilitating **version control** and **artifact management**.
- ▶ **Integrated** Docker **images** into CI/CD **pipelines** in Azure DevOps, tagging artifacts for traceability and seamless deployment to **Azure Kubernetes Service** AKS, optimizing the software delivery lifecycle **SDLC**.
- ▶ Orchestrated containers using **Kubernetes** on **AKS**, ensuring scalability, reliability, and efficient resource utilization.
- ▶ Integrated **SonarQube, Snyk, and Checkmarx** into the CI/CD **pipeline** to continuously monitor and improve code **quality and security**, reducing **vulnerabilities** and ensuring compliance.
- ▶ Integrated **unit tests, integration tests, and UI tests** with **Selenium** into the CI/CD pipelines, ensuring comprehensive testing coverage and automated report Generation.
- ▶ Assisted the migration from **JIRA & Kanban** to **Azure Test Plan** for testing, and using **Azure Boards** to view stories, tasks, bugs, and features. Overseeing parallel usage of both systems to ensure a smooth transition.
- ▶ Involved in **Designing, Configuring and Deploying** Azure Virtual Networks **VNets**, Subnets, Service and Private Endpoints, DNS Servers, Address space, Security Policies and VNet Peering's using **Terraform**.

- ▶ Created and managed **Azure AD tenants, manage users and groups** in Azure AD, and configure application **integration** with Azure **Default Directory**. Configured Multi-Factor authentication **MFA** and aligned single sign-on **SSO**.
- ▶ Assisted in deploying Azure **Monitor** and Azure **Log Analytics** for real-time **monitoring and logging** of cloud resources, enhancing visibility and operational efficiency.
- ▶ Implemented **Azure Key Vault** to securely manage **secrets, credentials, and configurations**, ensuring data **security and compliance**. Integrated access to Key Vault and **utilized** stored **credentials** within the **pipeline** for enhanced security and seamless deployment processes.
- ▶ Established a **branching** strategy using **Git** and **Azure Repos**, creating separate branches for Dev, Test, UAT, and Production **environments**.
- ▶ Set up **manual validation** steps in the CI/CD **pipeline** for **critical deployments, ensuring** thorough **review** and **approval** before production release.
- ▶ Integrated **security tools** like **OWASP ZAP** and **Veracode** into the CI/CD pipeline for continuous security scanning and vulnerability assessment.
- ▶ **Created and maintained** detailed **documentation** of **migration** processes, CI/CD **pipeline** configurations, and **infrastructure** setups to facilitate **knowledge transfer and future maintenance**.
- ▶ Followed **Agile** methodologies to measure the overall workflow of projects and attended daily stand-up meetings.

Softline Solutions PVT. LTD. (Bangalore, IN) | Azure/Cloud DevOps Engineer

RESPONSIBILITIES:

Jul 2020 - Jul 2022

- ▶ Designed cloud native solutions with **Azure PAAS** services leveraging **Azure storage, Azure SQL**. Designed **event-driven** architectures using serverless **functions**, orchestrated and managed through **GitHub Actions**.
- ▶ Created and deployed entire Azure infrastructure declaratively using **Azure ARM Templates**. Supported **migration** of existing applications to **Azure cloud**, using GitHub **Actions** for **CI/CD**.
- ▶ Designed, build, administered and deployed **scalable** Azure resources to ensure **security, availability, scalability, and reliability** of applications.
- ▶ Created and configured **HTTP Triggers** in Azure Functions enabling **Application Insights** for monitoring, debugging, and performing **load testing** on the applications using **Python API** for uploading all the agent logs into **Blob Storage**, with automation through GitHub Actions.
- ▶ Implemented Network Security Groups (NSGs) to control traffic to inbound and outbound ports and allowed access to network interfaces (NICs) and VMs.
- ▶ Hosted private Git repositories for source code control. Developed build workflows, additionally utilizing **GitHub Actions** to **enhance automation** capabilities, **enabling parallel** workflows, and **integrating seamlessly** with repositories.
- ▶ Automated Tekton pipelines using **GitHub Actions** which helped users to not have specific Kubernetes knowledge beforehand and teams to transform to cloud native solutions for CI/CD pipelines.
- ▶ Managed pulling **Docker** images from **Docker hub** and stored files in Azure storage account by implementing various **lifecycle** policies.
- ▶ Worked on **Kubernetes** to manage containerized applications using its nodes. **Responsible** for **build** and **deployment** automation using **Docker & Kubernetes** containers.
- ▶ Assisted in designing and development of the **security** components of Kubernetes in multiple cloud environments.
- ▶ **Created and managed** organization's infrastructure within Azure using **Terraform** and **Ansible**, automated **deployment** processes with **GitHub Actions**.
- ▶ Provisioned **Terraform Enterprise** with all the sophisticated features and common workflows.
- ▶ Wrote **Ansible playbooks**, Roles and followed **best practices** to utilize **Ansible Handlers** with multiple tasks to **trigger** various **handlers** and to decouple handlers from their names.
- ▶ Involve in daily **stand-up** meetings, sprint **backlog** and sprint **retrospective** for **Agile Scrum** Process.

Compendious Medialabs Pvt. Ltd. (Mumbai, IN) | Ansible/Cloud Engineer (Intern)

RESPONSIBILITIES:

Dec 2019 - June 2020

- ▶ Developed custom **Ansible Modules** in **Python** to enhance functionality and automate tasks within the infrastructure.
- ▶ Worked on in-line scripts automation for **Ansible** and **Terraform**, using Bash, Python, Shell, and Powershell.
- ▶ **Developed** and maintained **scripts** to **automate** repetitive **tasks, enhancing productivity** and efficiency across the team using **Python, Bash, and PowerShell**.
- ▶ Used **Ansible** to automate **Configuration Management** tasks, ensuring **consistency, repeatability** and avoiding **configuration drift** across environments.
- ▶ Collaborated with fellow DevOps engineers to **support** the **development** and **maintenance** of CI/CD **pipelines**.

- ▶ Tested **Jenkins** for CI and automated scheduled data **scraping** and **uploading** to databases, ensuring **timely** and **accurate data** updates.
- ▶ Assisted in the deployment and monitoring of automated solutions, **ensuring smooth** operation and **quick issue** resolution.
- ▶ Knowledge and hands-on experience with popular DevOps tools such as Docker, Kubernetes, Jenkins, Ansible, and Terraform.
- ▶ Experience with Infrastructure as Code (IaC) tools, particularly **Azure Resource Manager** (ARM) templates and Terraform and Ansible for automating configuration management and deployment tasks.
- ▶ Strong **communication skills** for effective interaction with various stakeholders, including developers, operations teams, and management.
- ▶ Gained experience in **critical thinking** and **problem-solving** abilities, essential for **troubleshooting** issues and **optimizing** processes.

Compendious Medialabs Pvt. Ltd. (Mumbai, IN) | Python Engineer (Intern)

RESPONSIBILITIES:

May 2019 - Dec 2019

- ▶ Developed **Python scripts** to automate tasks using APIs, including creation and utilization, and implemented **web scraping** and **testing** with **Selenium**.
- ▶ Utilized **Python libraries** such as **requests** for efficient handling of HTTP requests for **data collection**.
- ▶ Used libraries like **Pandas, NumPy** for **sorting and filtering** data and used **Databases** for **storing, and retrieving** data.
- ▶ Leveraged **Redis** for caching and optimizing data retrieval processes, enhancing system performance and efficiency.
- ▶ Integrated **RSS** feed handling into Python scripts, enabling streamlined **data processing** and utilization for various applications.
- ▶ Utilized **Azure services** for **virtual machines, databases**, and other **infrastructure** requirements, ensuring scalable and reliable automation solutions.
- ▶ Implemented end-to-end automation **workflows**, ensuring seamless **execution of tasks** from data **acquisition** to **storage** and **processing**.
- ▶ Contributed to the development of **internal tools** to streamline **repetitive tasks**, **increasing** team **productivity** and **efficiency**.

EDUCATION

Binghamton University (SUNY)	<i>Aug 2022 - Dec 2023</i>
<i>Master of Science in Computer Science</i>	GPA: 3.44/4
Universal College of Engineering	<i>Jul 2016 - Jun 2020</i>
<i>Bachelor's in Computer Engineering</i>	GPA: 8.09/10
